The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.**

This KIM is dated April 28, 2016.

**KEY INFORMATION MEMORANDUM**

Name of the Scheme	<b>BNP Paribas Bond Fund (BNPPDFD)</b>			
Type of the Scheme	An open-ended Income scheme.			
Date of Inception	November 8, 2008			
Investment objective	The primary objective of the Scheme is to generate income and capital gains through investments in a portfolio of debt and money market instruments. However, there can be no assurance that the investment objectives of the Scheme will be realized. The Scheme does not guarantee / indicate any returns.			
Asset Allocation Pattern	The asset allocation of the scheme under normal circumstances would be:			
	<b>Type of Instruments</b>	<b>Minimum Allocation (% of Net Assets)</b>	<b>Maximum Allocation (% of Net Assets)</b>	<b>Risk Profile</b>
	Debt Instruments*	15	100	Low to Medium
	Money Market Instruments	0	85	Low to Medium
	*Debt instruments may include securitised debt upto 60% of the net assets & exposure in debt derivatives upto maximum permissible under SEBI regulations i.e. 100%. The Scheme shall limit its exposure to investment in Foreign Debt Securities upto a maximum of 30% of its net assets including investment in Overseas Debt Exchange Traded Fund. The Scheme will not invest in equity and equity related securities and foreign securitised debt.			
Investment Strategy	The objective of the Scheme is to generate income and capital gains through investments in a portfolio of debt and money market instruments. The Fixed Income Process aims to deliver superior returns through an active management process comprising of Research Analysis, Portfolio Construction and Monitoring. Research Analysis aims at generating alpha. The key dimensions of Alpha Generation in the Indian Market are Interest Rates and Credit.			
Risk Profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment.</p> <p><b>Standard Risk Factors</b></p> <ul style="list-style-type: none"> <li>- Investments in mutual fund units involves investment risks such as market risk, credit &amp; default risk, liquidity risk, trading volumes, settlement risk, including the possible loss of principal.</li> <li>- As the price/ value/ interest rates of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in the stock markets, bond markets, fluctuations in interest rates, prevailing political and economic environment, changes in government policy, factors specific to the companies and issuer of the securities, tax laws, liquidity of the underlying instruments, settlement periods, trading volumes etc.</li> <li>- Past performance of the Sponsor/ AMC/ Mutual Fund does not guarantee future performance of the scheme.</li> <li>- BNP Paribas Bond Fund is the name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.</li> <li>- The sponsor / associates are not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of ₹ 1,00,000/- (Rupees</li> </ul>			

**KEY INFORMATION MEMORANDUM**

	<p>One lakh only) to the corpus of the Mutual Fund made by it towards setting up the Fund.</p> <ul style="list-style-type: none"> <li>- The present scheme is not a guaranteed or assured return scheme.</li> </ul> <p><b>Scheme Specific Risk Factors:</b></p> <p><b>Market Risk:</b> All mutual funds and securities investments are subject to market risk and there can be no assurance / guarantee that the scheme's objectives will be achieved. The securities that the scheme invests in would be exposed to price changes on a day-to-day basis. These price changes may occur due to instrument-specific factors as well as general macroeconomic conditions. Markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market or economic developments. The scheme may be subject to price volatility due to factors such as interest sensitivity, market perception, and creditworthiness of issuer and market liquidity. Different parts of the market can react differently to these developments. The value of an individual security or particular type of security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole.</p> <p><b>Concentration Risk:</b> The scheme may pursue only a limited degree of diversification. It may invest a greater proportion of assets in the securities of very few issuers (within the limits permitted by regulation) or be concentrated on a few market sectors. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.</p> <p><b>Risks associated with investing in fixed income securities:</b></p> <ul style="list-style-type: none"> <li>- <b>Credit and Counterparty risk:</b> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security or honor its contractual obligations). Counterparty risk refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments or the conclusion of financial derivatives contracts. The value of a fixed income security will fluctuate depending upon the changes in the perceived level of credit and counterparty risk as well as any actual event of default. If the credit rating of an issue, issuer or counterparty is downgraded this may cause the value of the related debt securities in which the scheme has invested to fall. This Scheme might hold large or all amount of its assets to securities with credit rating BBB, or lower in case of downgrading. This could present a much higher than average risk. The severity of the risk varies depending on the quality of the securities in the scheme. To the extent that the scheme invests in high-yield bonds, this presents a higher than average risk. There are different types of debentures available in the market. Some of them could be more risky. Lower-quality debt securities and certain types of securities involve greater risk of default or price changes due to changes in the credit quality of the issuer. They are not in the first rank of debts in case of default. The value of lower-quality debt securities and certain types of other</li> </ul>
--	---

**KEY INFORMATION MEMORANDUM**

securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market or economic developments.

- **Liquidity Risk:**

The liquidity of the scheme's investment is inherently restricted by trading volumes in the securities in which the scheme invests.

A lower level of liquidity affecting an individual security or an entire market at the same time, may have an adverse bearing on the value of the scheme's assets. More importantly, this may affect the Fund's ability to sell particular securities quickly enough to minimise impact cost, as and when necessary to meet requirements of liquidity or to sell securities in response to triggers such as a specific economic /corporate event. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of a few or all of the investments and may affect the liquidity of the investments of the scheme.

The scheme may be unable to implement purchase or sale decisions when the markets turn illiquid, missing some investment opportunities or limiting ability to face redemptions. The lack of liquidity could also lead to the risk that the sale price of a security could be substantially lower than the fair value of the security.

Treatment and disposal of illiquid securities/NPAs: Such securities will be valued in good faith in accordance with the Valuation Policy. Further SEBI Regulations / provisions (vide SEBI Circular - MFD/CIR/05/432/2002 dated June 20, 2002) shall apply for such securities. Accordingly any amount realized by the mutual fund after the winding up of the schemes from such NPAs and illiquid securities, if substantial and realized within two years shall be distributed back to the investors. In case the amount is not substantial or it is realized after two years, it may be transferred to the Investor Education Fund maintained as specified in SEBI circular MFD/CIR/9/120/2000 dated November 24, 2000. The decision as to the determination of substantial amount shall be taken by the Trustees of Mutual Fund after considering the relevant factors.

- **Interest Rate Risk & Re-investment Risk:**

The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc. The value of debt and fixed income securities held by the Scheme generally will vary inversely with the changes in prevailing interest rates. In general, price of debt and fixed income securities go up when interest rates fall, and vice versa. Securities of any issuer that has higher duration could be more risky in terms of price movements relative to those with lower duration. Thus any impact of interest rate changes would be higher on securities with higher duration irrespective of the status of the issuer of the security. The investments made by the Scheme are subject to reinvestment risk. This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed. There have been times in the past, when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.

**KEY INFORMATION MEMORANDUM**

	<p><b>- Sovereign risk:</b>  The Central Government of India is the issuer of the local currency debt in India. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying least probability of a default, such securities are known as securities with sovereign credit. It also implies that the credit risk on such Government securities is even lower than that on non-government securities with "AAA" rating and hence yields on government securities are even lower than yields on non-government securities with "AAA" rating.</p> <p><b>Risk associated with investment in unrated instruments:</b>  The scheme may invest in lower rated/unrated instruments considering the overall risk of the portfolio. This may increase the absolute level of risk of the portfolio. The credit risk &amp; liquidity risk will be relatively higher for lower/unrated instruments as compared to the instruments that have been assigned investment grade ratings. Lower rated/ unrated securities also tend to be more sensitive to economic conditions than instruments that have been assigned investment grade ratings.</p> <p><b>Risks associated with Securities Lending:</b>  The risks in lending portfolios securities as with other extensions of credit consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Schemes and the approved intermediary. Such failure to comply can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.</p> <p><b>Risks associated with investing in securitised debt:</b>  The scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). ABS means securitized debts wherein the underlying assets are receivables arising from personal loans, automobile loans, etc. MBS means securitized debts wherein the underlying assets are receivables arising from loans backed by mortgage of properties which can be residential or commercial in nature. ABS / MBS instruments reflect the undivided interest in the underlying of assets and do not represent the obligation of the issuer of ABS / MBS or the originator of the underlying receivables. The ABS / MBS holders have a limited recourse to the extent of credit enhancement provided. Securitized debt may suffer credit losses in the event of the delinquencies and credit losses in the underlying pool exceeding the credit enhancement provided. As compared to the normal corporate or sovereign debt, securitized debt is normally exposed to a higher level of reinvestment risk. For further details, please refer Scheme Information Document.</p> <p><b>Risk associated with investments in derivatives:</b>  The scheme may use various derivative instruments and techniques, permitted within SEBI Regulation from time to time only for portfolio balancing and hedging purpose, which may increase the volatility of scheme's performance. Usage of derivatives will expose the scheme to certain risks inherent to such derivatives.  Derivative products are specialized instruments and can provide disproportionate</p>
--	---

**KEY INFORMATION MEMORANDUM**

	<p>gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. For further details, please refer Scheme Information Document.</p> <p><b>Risk factors specific to investments in foreign securities:</b>  To the extent that the assets of the scheme may invest in foreign securities, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market, lack of complete or reliable information, market irregularities or high taxation. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances. Since the scheme may invest predominantly in foreign securities / markets of certain specific countries, there is a country risk which includes events such as introduction of extraordinary exchange controls, economic deterioration, bi-lateral conflict leading to immobilization of the overseas financial assets, political uncertainty, prevailing laws and policy matters including prevalent tax laws of the respective jurisdiction for execution of trades or otherwise applicable for investments in such securities / markets and the jurisdiction through which settlement of such transactions takes place. The fund shall also be exposed to settlement risk, as the country where investment is made might have different settlement periods. Market risks can be greater with respect to political instability, lack of complete or reliable information, market irregularities or high taxation. As the investment will be in securities, which are denominated in foreign currencies, fluctuation in the exchange rates of the foreign currencies may have an impact on the income and value of the fund. It may be noted that if rupee appreciates, it will lead to reduction in returns to investor. The liquidation of securities where investments will be made by the schemes shall be subject to the liquidity / settlement issues of the country of investment / settlement. Non-business days in country of investment / settlement may impact the liquidity of the scheme's investments. If due to difference in time zone, in case the AMC is unable to declare the NAV as per provisions stated in this SID, the acceptance of transactions shall be suspended.</p> <p><b>Other Risks</b>  Other risks including risk associated with inflation, legal risk, taxation risk, valuation risk &amp; operational risk &amp; risk factors associated with processing of transaction in case of investors investing in mutual fund units through Stock Exchange Mechanism as provided in Scheme Information Document.</p> <p><b>Investors in the Scheme are not being offered any guaranteed returns. Please refer to SID for more details on scheme specific risk factors.</b></p>
<b>Risk Control Measures</b>	<p>Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. While allocating and choosing securities, the Investment Manager will aim to diversify by gaining broad exposure to different industries and companies in order to reduce risk. For investments in fixed income instruments, a credit evaluation of each investment opportunity will be undertaken to manage credit risk. The AMC will utilize ratings of</p>

**KEY INFORMATION MEMORANDUM**

	<p>recognized rating agencies as an input in the decision making process. The fund manager shall follow the asset allocation pattern in SID under normal circumstances and residual cash may be invested in the collateralized borrowing &amp; lending obligations (CBLO) / repo market, units of mutual fund which seeks to ensure liquidity in the scheme under normal circumstances. There can however be no guarantee against liquidity risk within the scheme. The AMC may also implement certain internal control procedures / risk exposure limits etc. for controlling risks which may be varied from time to time. The scheme may utilize derivative instruments for hedging &amp; portfolio balancing purposes. All Interest Rate Swaps will be undertaken with approved counter parties under pre-approved International Swaps and Derivatives Association (ISDA) agreements. The scheme may also use various derivatives and hedging products from time to time, as would be available and permitted by SEBI/RBI for the purpose of hedging and portfolio rebalancing. The above risk control measures shall be implemented by the AMC on best effort basis however there can be no guarantee that such measures can completely mitigate the risks involved in Scheme.</p>																				
Plans & Options	<p>The Scheme offers following two plans:</p> <ul style="list-style-type: none"> <li>• BNP Paribas Bond Fund</li> <li>• BNP Paribas Bond Fund - Direct Plan</li> </ul> <p>Each Plan offers Growth Option and Dividend Option*. The Dividend Option offers Monthly Dividend Option, Quarterly Dividend Option and Annual Dividend Option. The Monthly Dividend, Quarterly Dividend and Annual Dividend Options offer Dividend Payout and Dividend Re-investment facilities.</p> <p>*In case the dividend amount is of or less than Rs. 500, the dividend shall be automatically reinvested.</p> <p>There shall be a single portfolio under the scheme.</p> <p><b>Growth Option:</b> The Scheme will not declare any Dividend under this Option. The income attributable to Units under this Option will continue to remain invested in the Option and will be reflected in the Net Asset Value of Units under this Option.</p> <p><b>Dividend Option:</b> Under Dividend Option, the dividend, if any, shall be declared by Trustees from time to time. The NAV of the unit holders in any of the dividend option will stand reduced by the amount of dividend declared. It may be noted that the declaration of dividend will be subject to the availability of distributable surplus as computed in accordance with the SEBI Regulations and discretion of the Trustees/ AMC. In case of such additional dividend declaration, if any, the dividend policy shall be ensured.</p> <p><b>Default Plan:</b> The following matrix shall apply for default plan:</p> <table border="1" data-bbox="431 1640 1430 1919"> <thead> <tr> <th>Scenarios</th> <th>Broker Code mentioned by the investor in application form</th> <th>Plan mentioned by the investor in application form</th> <th>Default Plan to apply</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>Not mentioned</td> <td>Not mentioned</td> <td>Direct Plan</td> </tr> <tr> <td>2</td> <td>Not mentioned</td> <td>Direct</td> <td>Direct Plan</td> </tr> <tr> <td>3</td> <td>Not mentioned</td> <td>Distributor Plan</td> <td>Direct Plan</td> </tr> <tr> <td>4</td> <td>Mentioned</td> <td>Direct</td> <td>Direct Plan</td> </tr> </tbody> </table>	Scenarios	Broker Code mentioned by the investor in application form	Plan mentioned by the investor in application form	Default Plan to apply	1	Not mentioned	Not mentioned	Direct Plan	2	Not mentioned	Direct	Direct Plan	3	Not mentioned	Distributor Plan	Direct Plan	4	Mentioned	Direct	Direct Plan

**KEY INFORMATION MEMORANDUM**

continuous NAV history available for this plan prior to May 10, 2010, the point to point return from since inception and 5 year period may not be the true representation of the performance of the scheme. Hence the returns since May 10, 2010 have been considered for calculating performance for the since inception.

**II. Absolute Returns for each financial year (Apr-Mar):**

Past performance may or may not be sustained in future and should not be used as a basis of comparison with other investments. Since inception returns are calculated on ₹ 10/- invested at inception. The returns are calculated for the growth option of distributor plan considering the movement of the NAV during the period. Performance of dividend option under the scheme for the investors would be net of distribution tax, if any. Returns do not take into account load and taxes, if any.

**Other Disclosures**
**I. Aggregate investment in the scheme as on March 31, 2016 by:**

1. **AMC's Board of Directors:** Nil
2. **Scheme's Fund Manager:** Rs. 6194.34
3. **Other Key managerial personnel (excluding 1 and 2 above):** Rs. 9272.55

<p>Sector level and Group Level exposure restriction</p>	<p><u>Sector level exposure limits:</u>  The Mutual Fund/AMC shall ensure that total exposure of the Scheme in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, TBills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the scheme;  Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 5% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only;  Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 25% of the net assets of the Scheme.</p> <p><u>Group level exposure limits:</u>  The total exposure of the Scheme in a group (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.  <i>For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.</i></p> <p>Further, in accordance with SEBI circular SEBI/HO/IMD/DF2/CIR/P/2016/35 dated February 15, 2016, the Scheme shall comply with the aforesaid investment restrictions at sector level and group level within a period of one year from the date of issuance of SEBI circular dated February 15, 2016.</p>
<p>Expenses of the Scheme</p>	<p><b>a. Load Structure</b>  Entry Load : Nil  Exit Load:</p> <ul style="list-style-type: none"> <li>• 1.00%, if redeemed or switched-out upto 1 year from the date of allotment of units.</li> <li>• Nil, if redeemed or switched-out after 1 year from the date of allotment of units.</li> </ul> <p>The above load shall also be applicable for all Systematic Investment Plans, Systematic Transfer Plans, Systematic Withdrawal Plans. No load will be charged on dividend re-investment units and bonus units. No exit load will be charged on switches between options of the same plan of the Fund. Please refer the section "Direct Plan" for load structure for switches within the Plan.</p> <p>In accordance with the requirements specified by the SEBI circular no. SEBI/ IMD/ CIR No. 4/ 168230/09 dated June 30, 2009 no entry load will be charged for purchase/additional purchase/ switch-in accepted by the Fund. The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder. The exit load charged, if any, shall be credited to the scheme.</p> <p>The AMC reserves the right to modify the load structure on a prospective basis.</p>

	<p><b>b. Recurring Expenses</b></p> <p><b>Estimated annual recurring expenses [% per annum of daily net assets]</b>  As per Regulation 52(6)(c)(i) of SEBI (MF) Regulations, the total fungible expenses including investment management and advisory fee and other allowable expenses shall be subject to the following percentage limit of daily net assets:</p> <ul style="list-style-type: none"> <li>(i) On the first Rs. 100 crore of the daily net assets 2.25%;</li> <li>(ii) On the next Rs. 300 crore of the daily net assets 2.00%;</li> <li>(iii) On the next Rs. 300 crore of the daily net assets 1.75%;</li> <li>(iv) On the balance of the assets 1.50%</li> </ul> <p><b>Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of units will be paid / charged under Direct Plan.</b></p> <p>Further, the following costs or expenses may be charged to the schemes:</p> <ul style="list-style-type: none"> <li>(a) Expenses not exceeding 0.30 per cent of daily net assets, if the new inflows from beyond top 15 cities are at least – <ul style="list-style-type: none"> <li>(i) 30 per cent of gross new inflows in the scheme, or;</li> <li>(ii) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher:</li> </ul> Provided that if inflows from such cities is less than the higher of sub clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.  Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.  The top 15 cities shall mean top 15 cities based on Association of Mutual Funds in India (AMFI) data on ‘AUM by Geography - Consolidated Data for Mutual Fund Industry’ as at the end of the previous financial year.  The said additional expenses on account of inflows from beyond top 15 cities so charged shall be clawed back in the scheme, in case the said inflow is redeemed within a period of 1 year from the date of investment.</li> <li>(b) Additional expenses under Regulation 52 (6A) (c), not exceeding 0.20 per cent of daily net assets of the scheme.</li> <li>(c) The AMC may charge service tax on investment and advisory service fees (‘AMC Fees’) which shall be borne by the Scheme in addition to the total expense ratio;</li> <li>(d) Brokerage and transaction costs includes service tax incurred for the purpose of execution of trade and is included in the cost of investment that shall not exceed 0.12 per cent (12 bps) in case of cash market transactions and 0.05 per cent (5 bps) in case of derivatives transactions.  It is clarified that the brokerage and transaction cost incurred for the purpose of execution of trade may be capitalized to the extent of 12bps and 5bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of TER as prescribed under regulation 52 of the SEBI (Mutual Funds) Regulations, 1996. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC or by the trustee or sponsors.</li> </ul>
--	--

**KEY INFORMATION MEMORANDUM**

Investors should note that the total recurring expenses of the scheme excluding issue or redemption expenses, whether initially borne by the Mutual Fund or by the AMC, but including the investment management and advisory fee, shall not exceed the limits as prescribed under Regulation 52 of the SEBI (MF) Regulations. Subject to the SEBI (MF) Regulations, expenses over and above the prescribed ceiling will be borne by the AMC.

For the actual current expenses being charged, the investor should refer to the website of the mutual fund. The mutual fund would update the current expense ratios on the website within two working days mentioning the effective date of the change.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per SEBI (MF) Regulation.

**Actual expenses for the financial year 2014-15:**
**Total recurring expense as a % to daily net assets :**

- Distributor Plan – 1.46%
- Direct Plan – 0.55%

**An Illustration of impact of expense ratio on Scheme's returns:**

If an investor A invests in a regular plan of a Scheme with an expense of 2% p.a. and an investor B invests in Direct Plan of the same scheme with an expense of 1% p.a. Assuming the gross return of this fund is 10% for that given year, investor A will make a return of 8% (post expense) for that year, whereas investor B will make 9% return for same period.

Also, please take a look at below illustration which shows impact of different expense ratio assumed on initial investment of Rs. 10,000 invested over period of 10 years with an average annualized gain of 10% p.a.

Value at End of Year	Assuming 10% p.a. gain (without any expense ratio)	Assuming 10% p.a. gain				
		with an average expense of 0.5% p.a.	with an average expense of 1.00% p.a.	with an average expense of 1.50% p.a.	with an average expense of 2.00% p.a.	with an average expense of 2.50% p.a.

**KEY INFORMATION MEMORANDUM**

Direct Plan	<p>Direct Plan is available under all the existing open-ended schemes of the Fund for investors who purchase /subscribe units in a scheme directly with the Fund and is not available for investors who route their investments through a Distributor. Following provisions shall be applicable for investments in Direct Plan:</p> <ol style="list-style-type: none"> <li>1. Switch of investments from distributor plan to Direct Plan within the scheme shall be subject to applicable exit load if any, if the investment had come through a Distributor. However, any subsequent switch out or redemption / repurchase of such investments from the Direct Plan will not be subject to any exit load.</li> <li>2. If the investment had come direct without any distributor code, then no exit load will be charged on switches from distributor plan to Direct Plan within the scheme. However, any subsequent switch out or redemption / repurchase of such investment from the distributor plan shall be subject to exit load based on the original date of investment in the distributor Plan.</li> <li>3. No exit load shall be levied in case of switches from Direct Plan to distributor plan within the scheme. However, any subsequent switch out or redemption / repurchase of such investment from the distributor plan shall be subject to exit load based on the original date of investment in the Direct Plan.</li> <li>4. Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc. and no commission for distribution of units will be paid / charged under Direct Plan.</li> <li>5. Investors wishing to transfer their accumulated unit balance held under distributor plan (through lumpsum / systematic investments made with or without Distributor code) to Direct Plan will have to initiate a switch request which shall be processed in the normal course as per timelines applicable for switch transactions.</li> <li>6. Investments under Direct Plan can be made through various modes offered by the Fund for investing directly with the Fund {except Stock Exchange Platform(s) and all other Platform(s) where investors' applications for subscription of units are routed through Distributors}.</li> <li>7. Investors, who have invested without Distributor code and have opted for dividend reinvestment facility under distributor plan prior to the January 01, 2013('Effective Date'), may note that the dividend will continue to be reinvested in the existing plan with the applicable terms and conditions.</li> <li>8. In case of Systematic Investment Plan (SIP) / Systematic Transfer Plan (STP), etc. registered prior to the Effective Date without any distributor code under the distributor plan, installments falling on or after the Effective Date will be automatically processed under the Direct Plan with the applicable terms and conditions.</li> <li>9. In case of the following facilities which were registered under the distributor plan prior to the Effective Date the future installments shall continue under the distributor plan: (i) Systematic Transfer Facilities (registered with Distributor Code) (ii) Dividend Transfer Plans (registered from a folio where investments were made both with and without Distributor code) In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities.</li> <li>10. Investors who have registered for SIP facility prior to the Effective Date with distributor code and wish to invest their future installments into the Direct Plan shall make a written request to the Fund for the same. The Fund will take at least 15 working days to process such requests. Intervening installment, if any, will continue in the distributor plan.</li> <li>11. Where units under a scheme are held under both distributor and Direct Plan and</li> </ol>
-------------	---

**KEY INFORMATION MEMORANDUM**

	<p>the redemption / switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number), failing which the request would be processed from the distributor plan. However, where units under the requested option are held only under one plan, the request would be processed under such plan.</p> <p>12. Switch / redemption / repurchase may entail tax consequences. Investors should consult their professional tax advisor before initiating such requests.</p> <p>Further, exit load shall be applicable for switches between the two schemes. The exit load shall not be charged for inter option switch within the same plan.</p>
<p>Directions to investors applying directly under all Schemes of the fund</p>	<p>In case of receipt of Application Form having broker code as <b>blank</b> space at the time of processing and allotting the units by the Registrars, AMC will consider such application as <b>“Direct”</b>. However, the Investors are requested to fill the blank space with the words such as <b>“Not Applicable”</b> or <b>“Direct”</b> so as to ensure that their application is processed as direct and any misuse is prevented. Alternatively, investors can also strike off the blank space in the broker code field to prevent any misuse.</p>
<p>Compliance with Foreign Accounts Tax Compliance Act (“FATCA”) and Common Reporting Standards (CRS) requirements</p>	<p><b>FATCA and CRS requirements may require disclosure regarding your investment in the units of the Scheme.</b></p> <p>Investors are further informed that the AMC / the Fund are required to adhere to various requirements inter alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities/third parties including the U.S Internal Revenue Service (‘IRS’) or the Indian tax authorities, for the purpose of onward transmission to the U.S. Internal Revenue Service or such other authority as specified under the applicable laws from time to time. The information disclosed may include (but is not limited to) the identity of investors and their direct or indirect beneficiaries, beneficial owners and controlling persons, their residential status / details. Accordingly, Investors are requested to provide all the necessary information / declarations and to comply with any reasonable request from the AMC/ the Fund to allow the AMC/ the Fund to comply with such information reporting requirements.</p> <p><b>For more details, investors are requested to refer to Scheme Information Document.</b></p>

**Notwithstanding anything contained in the Key Information Memorandum, the provisions of SEBI (Mutual Funds) Regulations, 1996 and Guidelines thereunder shall be applicable. Further, investors may ascertain about any further changes from the Mutual Fund/Investor Service Centres / Distributors or Brokers.**

**KEY INFORMATION MEMORANDUM**
**Comparison of existing open ended fixed income schemes of the Fund**

Name of the Scheme	Investment Objective	Product Differentiation	Number of folios as on 31-Mar-16	AUM as on 31-Mar-16 (₹ in crores)
<b>BNP Paribas Monthly Income Plan</b>	The primary objective of the Scheme is to generate regular returns through investment primarily in Debt and Money Market Instruments. The secondary objective of the Scheme is to generate long-term capital appreciation by investing a portion of the Scheme's assets in equity and equity related securities.	The net assets of the Scheme will be invested in debt and money market instruments. The Debt portion of the portfolio will be actively managed based on the AMC's view on interest rates. Some portion of the Scheme's assets will be invested in equity and equity related securities to fulfill the secondary objective of the Scheme. The Scheme will invest upto 100% in debt instruments & money market instruments and upto 20% in equity & equity related securities normally.	4721	182.28
<b>BNP Paribas Flexi Debt Fund</b>	The primary objective of the Scheme is to generate income through investments in a range of Debt and Money Market Instruments of various maturities with a view to maximize income while maintaining an optimum balance between yield, safety and liquidity.	This Fund invests in an optimum combination of debt instruments having maturities of more than 1 year, money market instruments and debentures with maturity of less than 1 year, thereby ensuring a portfolio containing securities having diverse maturities. The Scheme will invest upto 90% in debt instruments with maturity of more than 1 year and upto 100% in money market instruments & debentures with maturity of less than 1 year normally.	2201	390.35
<b>BNP Paribas Government Securities Fund</b>	The objective of the scheme is to seek to generate income and capital appreciation by investing in a portfolio of government securities of various maturities issued by Central & State Government.	The scheme will invest in Government Securities issued by Central / State Government, repos / reverse repos in Central / State Government Securities as may be permitted by RBI. The scheme will invest 65 to 100% in Government Securities issued by Central / State government and Treasury Bills. Further, 0 to 35% shall be invested in Reverse repos in Government Securities and CBLO. Units of liquid funds and units of schemes predominantly investing in Government Securities.	163	43.78
<b>BNP Paribas Money Plus Fund</b>	The primary objective of the Scheme is to provide income Consistent with the prudent risk from a portfolio comprising of floating rate debt instruments, fixed rate debt instruments, money market instruments and derivatives	This Fund majorly invests in Floating Rate Debt Instruments (including Money Market Instruments, Debt Instruments of residual maturity less than one year and also Fixed Rate Debt Instruments swapped for floating rate returns).
